POLICE AND DETECTIVES. POLICE AND DETECTIVES.

Up to this time the police and detective forces have made no further arrests in connection with the explosion at Lombardy and Broad, but they are quietly at work on the case. The detectives are following a slight clue, the exact nature of which they do not care to give out for publication. Every other tangible fact that may lead to the discovery of the criminal is being carefully followed and nothing will be left undone that may herow any light upon this deed of a midnight assassin. The police department have nothing to give out for publication at this time.

A quarryman familiar with the use of dynamite and its power and effects, expressed the confident belief that only stream and another white woman has been assaulted and murdered by a colored brute. While alone in her house in Edgecombe county at noon to-day, Mrs. Pass Long, the wife of a prominent farmer, was attacked by an unknown negro, who struck her a blow that rendered her temporarily unconscious, and then accomplished his purpose. Afterward the negro struck and bruised the unconscious woman. Searching parties have been organized and bloodhounds are being used to run down the criminal.

GOVERNOR VAN SANT IS NOT DISCOURAGED

Have to Be Decided by the Court of Last Resort-The Matter Now Pending is Under the Sherman Anti-Trust Law. Official Opinion.

ST. PAUL, MINN., August 1.-Judge Lochren to-day, in the United States Circuit Court, handed down his decision in the case of the State of Minnesota gainst the Northern Securities Company,

against the Northern Securities Company, the Great Northern Railway Company, the Northern Pacific Railway Company and James J. Hill, as president of the Northern Securities Company, and individually, in which he sustained the contentions of the defendants and dismissed the bill of complaint of the State.

He finds that the Northern Securities Company has not violated the State laws forbidding the consolidation of parallel and competing lines of railway through its ownership of the stock of the Great Northern and Northern Pacific Railways. He refuses the injunctions asked by the State of Minnesota to restrain the Securities Company from voting the stock of the two railway companies, or either of them.

Federal Oase Unaffected.

This decision affects the results of the ederal Government's victory in the Ciruit Court in no way whatever. The

Company was beaten, was prosecu-for violation of the Sherman anti-law passed by the Federal Con-

trust law passed by the Federal Congress.

The State suit, in which the Security Company wins, was based on an allegation that the defendants violated acts of the Minnesota Legislature forbidding the consolidation of purallel and competing lines of railway.

The hearing of the State suit was begun Friday, June 5th, before Judge Lochren in the Federal Circuit Court. It followed the submission of much testimony by both sides for many months, in which Frederick G. Ingersoil, of this city, acted as referee, The final argument lasted five days, in which Attorney-General Dougliss, former Attorney-General Dougliss, former Attorney-General Dougliss, for the State, and George B. Van Sant Cheerful.

ST. PAUL, MINN., August 1.—Governor Van Sant said concerning the decision of the court in the Northern Securities case:

case:

"I do not feel the least discouraged by the decision of the court this morning. It simply means that the case will have to be finally decided by the court of last resort. The State will immediately appeal, and every effort be made by the attorney-general and his able associates to protect the interest of the people. The fight is going to continue until our laws are vindicated and upheld."
